

Publication of the communications presented at the 3rd European Pond Conservation Network (Valencia, 14-16th May 2008)

Two special issues of international journals are planned:

- A special issue of the international peer-reviewed journal *Hydrobiologia* (ISI Impact Factor = 1.1) is planned (will be published in 2009). Both papers presented orally and posters can be submitted for publication. The papers (*max* 10 pages, in English) should be transmitted before **30th September 2008** to the scientific committee (to the coordinator: beat.oertli@hesge.ch); they will later be submitted to peer review.

Manuscript preparation has to follow the rules fixed by *Hydrobiologia* (available on the web site: <http://www.springer.com/life+sci/ecology/journal/10750>)

- A special issue of the international journal *Limnetica* is planned (will be published in 2009). Both papers presented orally and posters can be submitted for publication. The papers should be transmitted before **31th December 2008** to the coordinator (Maria Rosa Miracle, rosa.miracle@uv.es); they will later be submitted to peer review. The papers (no more than 20 printed pages) could be presented in English.

Manuscript preparation has to follow the rules fixed by *Limnetica* (available on the web site: <http://www.limnetica.com/>).
